AMAZON

PEST EXTERMINATORS

OUR MISSION

At Amazon Pest Exterminators, we pride ourselves on offering a reliable pest control service in Melbourne and the outer suburbs to both residential and commercial properties for over 18 years. Providing a pest control service that you can rely on, Amazon is family owned and operated. All our employees are fully licensed and insured. Our main priority is customer satisfaction.

OUR VISION

Our vision is to continuously grow our reputable Pest Control company that has a significant presence in the Australian Building and Construction Industry. We currently service over 1200 Melbourne homes and business's and we intend to reach a milestone of over 5000 repeated clients by the year 2021. We feel we have created a sustainable foundation to achieve this.

OUR TEAM

Our skilled and highly qualified support team are well equipped at managing all our customer's needs, from our office administration and support team to our extermination technicians. Our staff are fully qualified in Certificate IV in Pest management, OCCUPATIONAL HEALTH AND SAFETY Certified.

PEST EXTERMINATORS

TERMITE PRE CONSTRUCTION

Whether you are a builder, developer or owner builder you are required to install termite protection barriers during construction. Amazon pest exterminators offer termite treatment methods for all new buildings. With an extensive range of building design styles, we can provide termite protection to protect your new construction.

- Concrete Slab penetration systems
- Ultimate physical termite barriers
- Ant capping systems
- Active perimeter systems

Our termite protection systems are carried out in accordance to Australian Standard AS 3660.1 – 2000 termite management new building work and AS 3660.2 – 2000 termite management in and around existing buildings.

HOMEGUARD SYSTEMS

Homeguard Blue DPC

DPC is unique, tri layer termite barrier with the bifenthrin locked into the plastic material. Approved as a termite/damp course barrier for cavities or full under slab termite/vapour barrier.

HomeGuard Penetration Protection

HomeGuard penetration collars are made to fit tightly over PVC pipes and other penetrations. They are designed to fully integrate within the concrete pour.

HomeGuard Systems Credentials

- Complies to BCA, Code-mark certified products and systems
- Penetration protection and perimeter systems comply to AS 3660.1
- DPC full under-slab termite/vapour barrier is installed to meet AS 3660.1
- Installers fully trained, supported and insured
- Products are fully warranted for 50 years
